

## Advanced options for Share Screen

These are available only to the Host or a Co-Host during the meeting, or they can be set when scheduling a meeting (but only when scheduling from the Zoom.US website, not when using the App to schedule).

1. Menu BESIDE "Share Screen"

2. Advanced Sharing Options

Options I recommend:

One participant at a time

All participants can share

Only Host can start sharing (i.e. interrupt) when someone else is sharing
